Memorandum  
To  
Sasol Management and Shareholder

At the AGM 2022

**Date: 2 December 2022**

**Venue: Sasol Head Office**

To Sasol Management and Shareholders

We the people of Sasolburg, Secunda, Mozambique and other parts of the world where Sasol operates, we call on Shareholders and Management to respect human rights, women's rights, labour rights, youth and children's rights including environmental rights

Sasol was built by our fathers, mother and brothers under apartheid regime and where paid slave wagers, these has led to us to live in poverty, squalor conditions, unemployment and unhealthy environment.

These Memorandum build on the last 4 Sasol AGM that have failed to address community issues and demand from communities of Sasolburg, Secunda, KZN and Mozambique

1. We demand on Sasol Management and Shareholders to comply with all environmental and other rights, where there is weak legal frameworks Sasol must adopt best available human rights and environmental standard.
2. We demand on Sasol Management and Shareholders to stop flaring and water pollution is everywhere in Secunda and Sasolburg and it affect human health on the daily bases and we are aware that Sasol is w
3. We demand Sasol Management and shareholders to comply with Air Quality Minimum Standard and environmental laws is South Africa and abroad as Metter of Agency to protect the health and wellbeing of people.
4. We demand Sasol to Management and shareholders to reskill Youth and Women who are sick in Sasolburg and Secunda because of Sasol Pollution impacts as part of Just Transition from fossil fuels.

5. We demand Sasol Management and Shareholders to committee to mitigate the impacts of Climate Change as it affect communities as a matter of Agency as the world is facing natural disasters because of climate impact.
6. We demand Sasol Management and Shareholders to Stop all offshore exploration of oil and gas in the Durban Coals as a matter of agency as there is destroying marines life of our cost and community livelihood that depends on fishing
7. We demand Sasol Management and Shareholders to pay for lost and damage of lovely hoods because of their historical and the current pollution.
8. We demand Sasol Management and Shareholder to disclose their current agreement with ArcerlorMittal on GreenHydron Plan and Capture and Storage plans
9. We demand Sasol Management and Shareholders to take resolutions that will save the Mother Earth from the impact of Climate Change, and we call on Sasol to move away from coal and gas project in South African and abroad where it operate.
10. We Demand Sasol Management and Shareholders to have a meaningful engagements with Communities and Activist not a tick box exercise as they are trying to do in the last 2 Months
